

COMPUSULT

Assistive Technology Training & Support Services

Compusult has a team of assistive technology specialists who provide a range of related services to meet your assistive technology needs. We work to find the most effective training and/or assistive technology solutions to meet each individual requirements. We provide location flexibility and can offer our services in a variety of settings including the office environment, home or school, or at our fully equipped training facilities.

Assistive Technology Training Services

Use assistive technology to its full potential with in-depth training on software functions. Compusult has a team of assistive technology trainers available to work with third-party and in-house developed products with a customized approach. We work with the client to recommend the appropriate amount and type of training.

We provide training in:

Individual or group training for professional development, educational environments, home use and train-the-trainer.

- Kurzweil
- ZoomText
- JAWS
- Dragon NaturallySpeaking
- iPad and iPod Accessibility
- Predictable
- Proloquo2Go
- Jouse
- Document Accessibility
- Computer Basics and Troubleshooting

Training Experience

Training for employers, community groups, primary, secondary and post-secondary educational institutions.

CAP Program

Compusult has provided training services for disabled U.S. Federal employees and wounded warriors through the CAP Program.
