Low Vision Products

Compusult carries a variety of products for persons with a visual impairment.

Desktop and Handheld Magnification Devices

- **Snow 7 HD Video Magnifier:** The Snow 7 HD has a 7 inch screen, 12 color modes, up to 16x magnification and the option to magnify distant as well as close objects.
- **Smartlux Portable Video Magnifier:** This hand held video magnifier creates up to 12x magnification with 5 viewing color modes. Store up to 20 pictures for later viewing. The stand allows 2 angles for hands-free use.
- **Presto Lite:** This desktop magnifier has 3 viewing modes (photo, positive and negative images) and simple controls for easy use.
- **U-See:** If you want to use a mobile tablet device as a magnifier, the challenge is being able to hold it still and move it smoothly. The U-See frame is a sturdy but simple holder of your device. You can move it smoothly from side to side to scan the document placed below.

Screen Reading software with Keystroke Control

- **JAWS:** Access all parts of your computer with software that is controlled through keystrokes. A robust in-program information resource provides in-depth and context-based help. JAWS has built in OCR and research functions. Customize your JAWS settings for general use and for specific programs.
- **ZoomText:** Provides magnification up to 36x regular size using a simple interface. Customize the color, pointer, focus indicator and even have customized magnification for specific screens. Both keystrokes and interface buttons can be used. ZoomText can be switched on and off quickly for ease of use by others.
- **Kurzweil 1000:** The useful study skills technology of Kurzweil 3000 is available for the low vision users as well. This is primarily a screen reading technology based on keystrokes with the same support for spelling, research and editing that works as well as the more visual Kurzweil 3000.
